

## **Environmental Policy Statement**

- Environmental Management is a corner stone of Construction Total Solutions Ltd Company Policy, we are committed to the protection of the environment and the prevention of pollution.
- The achievement of effective policies and the provision of a level of quality and service for the benefit of our clients, employees and the wider community will require commitment from all, working in partnership, to ensure the implementation of an environmental management system which satisfies the requirements of ISO 14001:2015 and we are committed to its continual improvement.
- An essential feature of the environmental management system is a commitment to continual improvement of environmental performance. This is achieved by setting annual environmental improvement objectives and targets which are regularly monitored and reviewed. The objectives and targets are publicised throughout the organisation and all staff are committed to their achievement.
- The environmental management system will ensure policies complement each other and make a positive contribution towards the Plan's underlying strategy and objectives. During continuous appraisal, we take account of both the environmental implications of adopting certain policies and the extent to which important overall economic and social priorities are achieved. The organisation is further committed to ensuring that all its activities are carried out in compliance with the relevant environmental legislation and non-legal compliance obligations.
- Areas under consideration at present include the following: -
  - Reducing or minimising the demand for non-renewable resources
  - Reducing waste and pollution
  - Protection of critical environmental assets
  - Enhancing environmental quality
  - Improving health, education, safety and training
  - Transportation of materials/service
- While policy areas are being appraised as part of the process, we will address various issues of: -
  - Effectiveness
  - Consistency/compatibility
  - Impact
- Continuous appraisal of policies will enable identification of possible adverse environmental effects.
- We will maintain the highest environmental standards in the following activities.

- As a contractor, Construction Total Solutions Ltd will: -
  - Use environmentally considerate methods and materials, wherever possible, to fulfil its contractual obligations
  - Seek to influence clients and designers in areas where design specifications may be improved and less harmful to the environment
- As an employer, Construction Total Solutions Ltd will: -
  - Consistently increase the environmental awareness of all its employees and subcontractors with the aim of preserving and, if possible, enhancing the environment in its widest sense
- This Policy and the obligations and responsibilities required by the environmental management system will be communicated to all employees and contractors working on behalf of the organisation.
- This Policy is available to the public on request and will be reviewed periodically to ensure its continuing suitability.
